Nguyễn Lương Minh Thông

DevOps Intern

0909763220 nguyenluongminhthong@gmail.com https://www.linkedin.com/in/thongnguyen1510/

Tan Binh, Ho Chi Minh City

OBJECTIVE

Final-year Information Technology student with a solid foundation in **Linux, Networking**, and practical experience with **Docker and Kubernetes**. Seeking a DevOps Intern opportunity to apply foundational knowledge in a professional CI/CD environment and gain hands-on experience with core Cloud technologies (AWS/Azure/GCP)

EDUCATION

Ho Chi Minh City University of Technology (HUTECH) 2022 - Present

Major: Information Technology

CERTIFICATIONS

Introduction to Cybersecurity(Cisco)	2024
Introduction to DevOps (Coursera)	2025
Networking Basics(Cisco)	2025
Introduction to Cloud Computing(Coursera)	2025

ACTIVITIES

Participant – DXC Technology Company Tour -

Ho Chi Minh City, Oct 2025

• Visited DXC Technology to learn about real-world software development processes and corporate culture.
• Gained insights into DevOps workflows, cloud infrastructure, and modern IT practices.

Participant – Software Testing & QA: Challenges and Career Path Seminar -

HUTECH University, Mar 2025

• Learned about software testing practices and QA career opportunities.

Participant – IT Career Orientation Seminar 2024 -

HUTECH University, Dec 2024

• Explored career directions in IT and essential skills for DevOps engineers.

Volunteer – "Về Ước Mơ" Community Program -

HUTECH University, Dec 2023

• Supported community activities and improved teamwork and communication skills.

SKILLS

Linux(Ubuntu) & Bash Scripting	Familiar with command-line operations, shell scripting, and basic server administration on Ubuntu/CentOS.
Git & Github	Version control, branching strategies, and CI integration using GitHub Actions.
CI/CD	Created basic pipelines to automate build, test, and deploy processes using GitHub Actions and Jenkins.
Docker & Containers	Containerization using Docker, Docker Compose.
Cloud Fundamentals	Basic AWS (EC2, S3), cloud concepts, and infrastructure fundamentals.
Networking Basics	Understand TCP/IP, DNS, HTTP, SSH, and load balancing principles related to cloud infrastructure.
Language	Bash, Javascript, Python
IAC	Terraform
English	B2 level – able to communicate and read technical documentation effectively.

PROJECTS

CI/CD Microservices Project October 2025 - Present

GitHub: github.com/ThongNguyen1510/cicd-microservices-project

• Built a microservices-based application using Docker and Docker Compose.
• Implemented a CI/CD pipeline with GitHub Actions for automated testing and deployment.
• Configured containerized services and integrated continuous delivery workflow.

Agri Blockchain System September 2025 - Present

Github: github.com/ThongNguyen1510/agri-blockchain-system

• Developed a blockchain-based system for agricultural supply chain traceability.
• Built and deployed smart contracts to ensure transparency and data integrity.
• Integrated web interface and backend API for managing and verifying transactions.

Real Estate Search & Rental Platform March 2025 - May 2025

GitHub: github.com/ThongNguyen1510/real-estate-project

- Developed a web platform for searching, renting, and listing real estate using digital map technology (Google Maps API / OpenStreetMap).
- Built backend using Node.js, Express.js, and SQL Server; implemented authentication with JWT.
- Collaborated with frontend team using React.js to create an interactive property map and search filters.
- Containerized services with Docker and implemented basic CI/CD pipeline for deployment.
- Designed database schema, optimized queries, and structured code following RESTful standards.

INTERESTS

Coding, Sports, Gaming, Esports and reading about emerging tech trends.

ADDITIONAL INFORMATION

Availability: Full-time or 4 days/week.
Have official university recommendation letter.
