Nguyễn Lương Minh Thông

DevOps Intern

0909763220 nguyenluongminhthong@gmail.com https://www.linkedin.com/in/thongnguyen1510/

Tan Binh, Ho Chi Minh City

OBJECTIVE

Final-year Information Technology student with a solid foundation in **Linux, Networking**, and practical experience with **Docker and Kubernetes**. Seeking a DevOps Intern opportunity to apply foundational knowledge in a professional CI/CD environment and gain hands-on experience with core Cloud technologies (AWS/Azure/GCP)

EDUCATION

Ho Chi Minh City University of Technology (HUTECH) 2022 - Present

Major: Information Technology

GPA: 2.84/4

CERTIFICATIONS

Introduction to Cybersecurity(Cisco)	2024
Introduction to DevOps (Coursera)	2025
Networking Basics(Cisco)	2025
Introduction to Cloud Computing(Coursera)	2025

ACTIVITIES

Participant – DXC Technology Company Tour -

Ho Chi Minh City, Oct 2025

• Visited DXC Technology to learn about real-world software development processes and corporate culture.
• Gained insights into DevOps workflows, cloud infrastructure, and modern IT practices.

Participant – Software Testing & QA: Challenges and Career Path Seminar -

HUTECH University, Mar 2025

• Learned about software testing practices and QA career opportunities.

Participant – IT Career Orientation Seminar 2024 -

HUTECH University, Dec 2024

• Explored career directions in IT and essential skills for DevOps engineers.

Volunteer – "Về Ước Mơ" Community Program -

HUTECH University, Dec 2023

• Supported community activities and improved teamwork and communication skills.

SKILLS

Linux & Bash Scripting	Familiar with command-line operations, shell scripting, and basic server administration on Ubuntu/CentOS.
Git & Github	Version control, branching strategies, and CI integration using GitHub Actions.
CI/CD Pipeline	Created basic pipelines to automate build, test, and deploy processes using GitHub Actions and Jenkins.
Docker & Containers	Containerization using Docker, Docker Compose; packaged and deployed microservices.
Cloud Fundamentals	Basic AWS (EC2, S3), cloud concepts, and infrastructure fundamentals.
Networking Basics	Understand TCP/IP, DNS, HTTP, SSH, and load balancing principles related to cloud infrastructure.
Python & Shell Automation	Used Python scripts and shell commands to automate repetitive tasks in personal and academic projects.
SDLC	Basic understanding of analysis, design, development, testing, and deployment phases.
English	B2 level – able to communicate and read technical documentation effectively.

PROJECTS

CI/CD Microservices Project October 2025 - Present

GitHub: github.com/ThongNguyen1510/cicd-microservices-project

• Built a microservices-based application using Docker and Docker Compose.
• Implemented a CI/CD pipeline with GitHub Actions for automated testing and deployment.
• Configured containerized services and integrated continuous delivery workflow.

Agri Blockchain System September 2025 - Present

Github: github.com/ThongNguyen1510/agri-blockchain-system

• Developed a blockchain-based system for agricultural supply chain traceability.
• Built and deployed smart contracts to ensure transparency and data integrity.
• Integrated web interface and backend API for managing and verifying transactions.

Real Estate Search & Rental Platform March 2025 - May 2025

GitHub: github.com/ThongNguyen1510/real-estate-project

- Developed a web platform for searching, renting, and listing real estate using digital map technology (Google Maps API / OpenStreetMap).
- Built backend using Node.js, Express.js, and SQL Server; implemented authentication with JWT.
- Collaborated with frontend team using React.js to create an interactive property map and search filters.
- Containerized services with Docker and implemented basic CI/CD pipeline for deployment.
- Designed database schema, optimized queries, and structured code following RESTful standards.

INTERESTS

Coding, Sports, Gaming, Esports and reading about emerging tech trends.

ADDITIONAL INFORMATION

Availability: Full-time or 4 days/week.
Have official university recommendation letter.
